

In occasion of the 16th Biennale of Architecture „Freespace“, the German Federal Foundation of Baukultur is organising the International Baukultur Days in Venice. The experience exchange „Sharing Heritage – Sharing Baukultur“ in collaboration with the German Cultural Heritage Committee serves as kick-off and aims at expanding the international network. In order to promote the professional exchange in the field of Baukultur an international conference on „Building bridges – Brücken bauen“ will be held in cooperation with the German Center for Venetian Studies. The symposium is accompanied by a guided exhibition tour and an evening reception. Participants are invited to take part in a guided tour across the Biennale.
